PEOPLE'S RIGHTS TO BE UPHELD

By Roosevelt Or Two Conventions.

Steam Roller's Progress Will Be Blocked By Teddy At Any Cost.

Chicago, June 19.—Col. Roosevelt will positively form a new party and lead it himself rather than submit to allow the millions of voters back of the progressive cause to be rolled through the packed roll call of the National Committee. Such was the message brought to Kentucky headquarters by two Kentucky Roosevelt men, who were close to Col. Roosevelt at 1 o'clock.

A well-known Republican from an adjoining State saw Col. Roosevelt at about the same time, and advised against such a course, urging that if Taft is nominated by fraud he will be overwhelmingly defeated, and Col. Roosevelt will be the inevitable leader in 1916, and Col. Roosevelt is understood to have stated that he did not think that way, that he was a citizen to fight thieves, and that he would not wait four years to try to convert the thieves to disgorge the property of 30,000,000 people.

LOOK FOR THIRD PARTY.

The atmosphere is very tense about Kentucky headquarters today, and the impression that the birth of a third party is at hand is general. The margin of control, even in the packed convention, is very close, and there will be one or two more decisive roll calls before the rope strains to the point of breaking.

What chance the cause of honesties of gaining votes in the Kentucky delegation no one knows. There are five votes which are held in line for the seat with great difficulty.

The Chicago Tribune, whose chief political writer, John P. O'Loughlin, is reputed to be entirely in the confidence of Col. Roosevelt, prints on its first page an article headed: "Honest roll or Roosevelt will go alone. Col. Roosevelt's followers to hold own convention in Cincinnati if list stands."

Following this O'Loughlin says: "Either the roll call of the Republican convention will be purged of the delegates fraudulently appointed upon it or there will be a double convention."

Today tens of thousands of men on the streets of Chicago or at the Coliseum are wearing an enormous placard bearing this sign: "Thou Shalt Not Steal."

Judge O'Neil arrived today and went at once into consultation with Mr. Edwards and Mr. Combs.

The meeting of the Kentucky delegates for organization in the Great Northern Hotel was practically without incident.

The action of the delegation at the meeting at Louisville was reaffirmed, there being no change in the selections. The rumored substitution of Richard C. Stoll, of Lexington, for Maurice L. Galyan, of Covington, on the Credentials Committee, was not made.

NOT STRONG FOR TAFT.

There are on the Kentucky delegation several men who, though instructed for Taft, are at heart for Roosevelt, and this may have intensified the quite evident feeling of uncertainty. Congressman John W. Langley figures it that Taft will lose by the narrow margin of two votes.

In this he claims no change of the present standing of the Kentucky delegation—twenty-four for Taft and two for Roosevelt. B. J. Hetherum, of Somerset, who was seated to the favor of O. H. Waddell, the Taft candidate, is quite certain that the Credentials Committee will reverse the action of the National Committee and give him the seat.

He said: "I have not the slightest doubt that I will be seated, for the contest that was brought against me was so absurd." Charles H. Berryman, former chairman of the Fayette County Committee, and Henry T. Duncan, who is contesting the seat of Richard C. Stoll as delegate from the Seventh district, arrived, and through the hustling proclivities of Col. Dick Ernst, of Covington, had seats among the

spectators of the convention.

CONVENTION MEETS AT 11 O'CLOCK TODAY.

Chicago, Ill., June 20.—(Special)—The Republican convention convened Thursday afternoon at 1 o'clock and adjourned to meet Friday morning at 11 o'clock when a report of the Committee on Credentials will be made.

Taft forces say they are into the fight to the end. Roosevelt forces are fighting just as hard, and say that if Committee on Credentials does not give square deal they will bolt and form third party with Col. Roosevelt at the head for President.

AFTER FIVE MORE KENTUCKY VOTES.

Chicago, June 19.—In the motion made this morning by Gov. Hulley, of Missouri, it was shown that the Roosevelt forces intended to continue their fight on the seats of Stoll and Hetherum, in the Seventh district, Wallace and Hetherum, in the Eighth district, and Waddell, in the Eleventh district. Gov. Hulley included their names in the list of seventy-eight names he moved be stricken from the roll to be replaced by the contesting Roosevelt delegates.

Hartford College Destroyed By Fire.

The citizens of Hartford were suddenly awakened Wednesday morning about 2 o'clock by the fire alarm, and it was soon discovered that Hartford College was on fire. As usual everyone went to the fire immediately, with buckets and fire extinguishers, but upon arrival were unable to do any good.

It seems that the fire started in the primary room, where two coal buckets of sulphur saturated with alcohol had been placed in the stove and ignited to fumigate the room. The stove pipe had been taken down, and it is supposed that in this manner the fire originated. Sulphur had been placed in all of the stoves, but this was the only one where any accident occurred. It will be remembered that some weeks ago school was dismissed on account of the sulphur smoke, and on account of this the building was being fumigated.

The entire town was out ready to do anything to save the building which had many pleasant memories for the majority of our people. There was nothing to do except see that the flying sparks did not set some nearby building on fire. This would have probably have caused much trouble had it not been

caused by the fire.

This is a terrible calamity to Hartford and many are made sad by this destruction. The building cost \$20,000 for erection and was covered by \$8,000 insurance. Wednesday afternoon the Board of Education met in call session and discussed the erection of another building. However, it was decided to wait until Monday night when a mass meeting of the citizens is called at the court house, when the matter will be fully discussed. The Board asks the Republican to urge everyone to attend this meeting and give the Board their assistance. It is hoped that a modern structure will accommodate many more students than the old building will be.

Salaries of College Professors Are Low

Negro Comedian Makes More Money Than College Tutors.

The range of salaries for the heads and faculties of State aided institutions of higher learning in this country is given in a bulletin issued by the United States Bureau of Education.

According to this authority one can see that Bert Williams, the negro comedian, can make a great deal more money than even the highest type of college presidents. The best paid head of any institution of this class is the president of the University of California, who receives \$12,000 a year and a house. The presidents of Illinois University and Cornell University each receive \$10,000 a year and house, while the president of the University of Minnesota gets \$10,000 without a house.

From these figures the presidents salaries run down as low as \$2,000. The salaries of the faculty members range from \$30 a year for the least paid tutor to \$6,000 a year for the best paid full professor, both extremes being touched at Cornell.

The Bureau of Education's bulletin show that the United States now contains exactly 100 universities and other institutions of higher education which depend in considerable measure on the state or federal government for their support.

Of these, sixteen are agricultural and mechanical colleges for negroes. Four of these state aided institutions have more than 400 members on their faculties—namely, the University of California, with a faculty of 42; the University of Illinois, with 226; Cornell University, with 62, and the University of Wisconsin, with 86.

Dissatisfied with Prosperity.
An old Indian runs in this fashion: "I was well, wanted to be better, took medicines, and here I am." A considerable part of the 15,000,000 voters of the United States, though hardly a majority, are apparently ready to change the party that controls all departments of the government from 1897 until the present House was elected. That was a period of sixteen years, and the executive branch is still Republican. What will Republicans have to say for themselves if called on to deliver the keys to another party on March 4 next? It will be something better than was ever said before under such circumstances. How stands the treasury at this moment? By the end of the month, which is also the end of the fiscal year, the surplus will be considerable.

During the sixteen years all American dollars were made as good as gold. The war with Spain was fought and paid for. It is needless to go into the details of the resulting territorial expansion. Nor is it required to give a long table, expressed in billions, of the general progress of the country. Tested at any point the answer is the same. Business is active all along the line, and the masses are steadily employed at good wages. What contrast with 1897. It that year the Republicans took hold, with promises to improve the situation in all respects. They have fulfilled the pledge more fully than was expected. Good times were restored, and so thoroughly that the building and completion of the Panama Canal became possible. This link between the oceans looked in 1896 like a dream of the distant future. If there must be a temporary Republican valedictory—which is improbable—it will be a thrilling review of great achievements.—Globe Democrat.

The Hunting Law.

The new hunting law went into effect on Wednesday since which it has been unlawful to hunt without a license except on your own premises, owned or otherwise. The law also applies to shooting, trapping or dynamiting fish. The penalty is a fine or imprisonment, or both, and a confiscation of the outfit captured. Resident hunters that have resided in the state 12 months preceding, may obtain a license by paying \$1.00. Non-residents must pay \$15. They are issued by the county clerk on proper application who will furnish blanks for the purpose. The open season for squirrels and young rabbits is June 15.

All persons hunting without a license in possession, ready to be exhibited to any one demanding same, will be subject to a fine of not less than \$10 nor more than \$25. License is not transferable. Any person who shall make to an officer authorized to issue hunting license, a false statement or change or alter his license in any manner, shall be punished by a fine of not less than \$50 nor more than \$200, to which may be added a sentence in the county jail. That is going after them some. He had better pay one little dollar and be a good law abiding citizen, and at the same time help to protect the fish and birds.

The law is also very stringent in regard to killing some birds.

Railway Wages and Cost of Living in the United States and Europe.

The Bureau of Railway Economics has completed the second of its comparative studies of railway conditions in the United States and the principal countries of Europe. This relates to the wages paid railway employees and the cost of living, and is based on the latest years for which comparative data are available.

The average daily compensation of rail- way employees of all classes for the year 1906 was in the United States, \$2.23; in the United Kingdom, \$1.05; excluding supplementary allowances negligibly affecting the average. It was in Prussia \$16.88, in Austria \$10.80; of a fireman 18.8 cents, and in Austria 8 cents.

The lowest paid railway employee in the United States, the ordinary trackman, receives a greater compensation than many of the railway employees of France, even those of higher grades and with responsible duties. The compensation of railway employees is from two to three times as high in the United States as in Italy.

A recent report of the English Board of Trade on railway wages show that the average weekly pay of enginemen in the United Kingdom in 1907 was \$11.17; of firemen, \$6.67. In the same year enginemen on American railroads received an average weekly compensation of \$25.99, counting six days to the week, and firemen \$15.21. Recent returns make it clear that in 1912 enginemen and firemen in the United States are compensated at rates of pay for specific runs that are two, three and four times as high as the corresponding rates on representative English railroads. The annual compensation of enginemen in the United States, as reported by two representative rail-

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the body from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up strong to resist disease. This is a tonic taken from Nature's garden, that builds up those weakened by disease.

Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N. Y., has received many letters similar to the following:

Mr. Frank R. Munro, of Paradise, N. S., writes: "I take great pleasure in writing you an update myself. In September last I was taken with Typhoid Fever, which put me in a dangerous condition. I had tried most everything I could get but nothing did me any good until I was induced to try Dr. Pierce's Golden Medical Discovery, and Pleasant Pellets, which I have had since. Before I took one bottle I saw a great improvement and when I had used this treatment two months using only a few vials of Pleasant Pellets, I returned to perfect health. I cannot find words to express my thankfulness for this wonderful medicine. I advise all sufferers to write to Dr. R. V. Pierce, as he cures when others fail."

way companies, now ranging from \$1.00 in switching service to over \$2,000 in passenger service, and of firemen from \$700 in switching service to over \$17,000 in passenger service.

For Continental Europe official returns in requisite detail are not available for a later year than 1908. The salaries and allowances of the typical enginemen in Germany amounted for that year to \$16.88, in Austria to \$10.80; of a fireman 8 cents, and in Austria 8 cents. The lowest paid railway employee in the United States, the ordinary trackman, receives a greater compensation than many of the railway employees of France, even those of higher grades and with responsible duties. The compensation of railway employees is from two to three times as high in the United States as in Italy.

A recent report of the English Board of Trade on railway wages show that the average weekly pay of enginemen in the United Kingdom in 1907 was \$11.17; of firemen, \$6.67. In the same year enginemen on American railroads received an average weekly compensation of \$25.99, counting six days to the week, and firemen \$15.21. Recent returns make it clear that in 1912 enginemen and firemen in the United States are compensated at rates of pay for specific runs that are two, three and four times as high as the corresponding rates on representative English railroads. The annual compensation of enginemen in the United States, as reported by two representative rail-

ways companies, now ranging from \$1.00 in switching service to over \$2,000 in passenger service, and of firemen from \$700 in switching service to over \$17,000 in passenger service.

It is well within the truth to estimate in a broad and general way that while the cost of living of a railway employee in the United States is less than fifty per cent higher than that of a corresponding employee in the United Kingdom or on the Continent, his compensation averages over twice as great.

FRIDAY, JUNE 21.

What we need is not a new kind of coin, but more power to hold.

During the convention at Chicago this week it is very appropriate to call Chicago the "Windy City."

It is not only possible, but highly desirable to make the Fourth of July as safe and sane as Memorial Day.

A Boston clergymen says American women wear too many clothes at water resorts. He is certainly hard to please.

Lots of chickens in Ohio county are on their last legs now. Camp meetings, basket dinners and other gatherings are beginning to open.

Bathing suits at the public beaches are to be made sanitary, but as yet nobody has volunteered to bolt the lake between the swimmers.

Woman married three times, has had an oil man for a husband on each occasion. It appears she is trying to get up to the "standard."

The Pennsylvania couple who can't remember whether they have fourteen or sixteen children, should refer the dispute to the family shoemaker.

Many things transpire in the proceedings of circuit court that are interesting to the uninitiated in court work, as well, sometimes, as to regular court attendants. However, Tuesday morning after motion hour His Honor, Judge Birkhead, was called upon to pass sentence upon a young man who had been found guilty of seduction. The unfortunate young fellow was called to the bar and asked by the court if he had any reason to offer why he should not be sentenced to hard labor in the penitentiary. To this he naturally replied he was not guilty. We have heard many sentences passed by the various courts, but the sentence passed and the words of advice and admonition given by Judge Birkhead were truly a masterpiece. While the sentence was as severe as possible, yet it was couched in words of fatherly advice and wisdom from this just. We wish that every young man in Ohio county could have heard this charge, and we feel that some would have probably changed from an immoral life to a correct and perfect deportment and would start out with a new and firm determination to be on a solid foundation.

DANGER OF SPITTING.

Ninety-five per cent. of our consumption, says the North Carolina State Board of Health, "comes from excessive spitting on the part of the consumptive, but also from people who are apparently healthy. Spit is frequently laden with deadly disease germs, particularly that of consumptives."

"When one coughs, spits or sneezes a great multitude of tiny drops of sputum are violently expelled from the mouth and nose. The largest of these drops can be readily seen. A large number of smaller droplets can be found if a mirror or piece of glass is held before the face when coughing or sneezing. A tremendous quantity of still smaller droplets are discharged in the form of an invisible spray or mist, which floats about in the air for some time. Scientists have found that when a man coughs, spits or sneezes in a large hall or room where the air is quiet, these tiny, invisible germ-laden droplets will float in the air for a distance of 25 to 100 feet. These tiny droplets, in the form of mist or spray, may be breathed in by other people, or they may settle on objects with which they come into immediate contact, such as food and clothing. Viewed in this light, such conduct is at least impolite. Furthermore, it is dangerous to the public at large to have careless people actually coughing, sneezing and spitting germ laden matter into the air even if it is invisible and in the form of fine mist."

Battle Flag is Returned.

Bickman, Ky., June 17.—Gen. W. A. Tyler, of this city, commanding general of the Forrest troops, has received from a man in Ardmore a Confederate battle flag that was captured at the battle of White Station, near Memphis, from Gen. Chalmers' troops.

had been sent by Gen. Forrest to make a feint on Memphis for the purpose of protecting his movement into Tennessee near Nashville. The sender of the flag said he had been presented with the flag by the colonel of the regiment that captured it. Gen. W. A. Tyler immediately sent the flag to Gen. N. B. Forrest, Commander-in-Chief of the Sons of Veterans to be placed in the museum of that body in Memphis.

CENTERTOWN.

Mrs. Foster McKenney, of this place, is visiting her son, Dr. McKenney, of Louisville.

Mrs. Laura Crowder, of Horse Branch, is here visiting her parents, Mr. and Mrs. A. B. Howe.

Mr. Edwin Nelson and wife, of Williamsburg, visited Mrs. Nelson's mother, Mrs. Lou Macklow, last week.

Mrs. Ben McKenney and children, of Goleonda, Ill., are here visiting the family of Mr. Foster McKenney.

Misses Mattie and Lotte Knykentoll, of Matanzas, visited the family of Mr. E. S. McMillan Saturday and Sunday.

Miss Mattie Shattock of Boxville, Ky., is here visiting her sister, Mrs. Geary German.

Mr. E. M. Davis and family visited J. A. St. Clair, Sunday.

Misses Lilia McKernan and Myrtle Parks, of Central Grove, were visitors in town last week.

Robert Rose, while placing some merchandise in a wagon last week, was thrown down and severely hurt.

A large crowd from here attended the party at E. H. Ashby's Saturday night. All report a fine time and lot of fun.

Mr. Tyrone Park, of Central Grove, was in town Sunday. Something strange about him coming so often.

900 Pension Applications.

Nine hundred applications for pensions under the new act granting allowances to veterans of the Confederacy have been filed with pension Commissioner Stone, and scores are being received every day. No way has been found yet to estimate how many applications will be made. The State Board which has charge of the distribution of pension money will decide who are entitled to pensions. The first payments will be made on August 5.

Colonel's Double is on the Job At Chicago.

Chicago, June 18.—J. M. Keyes, delegate from Massachusetts, is a double for Col. Roosevelt, and the fact was the cause of considerable excitement last night in a Michigan Avenue hotel cafe. The delegate was enjoying his dinner when there was a stampede toward him of persons who thought they were gazing on the ex-President.

It was necessary to get a detail of police to check the crowds who were about to rush the "candidate."

Mr. Keyes wears on his lapel a button photograph of himself, labeled "Am Roosevelt's Double. Can You Beat It?" He says he does not always enjoy the honor, as it is often the cause of considerable annoyance, especially in crowds.

Watch the Farmer Vote.

Who will control the coming presidential election? The farmers will have a great deal more to say about it than most people imagine. The farmers are not trusting to luck this time. They have been shaping their affairs and preparing for the worst. They will not be caught with surplus stock and products. They have been engaged in disposing of every thing they could and turning it into money. That money is now in the banks and if a Democrat should by chance be elected President they will be ready for the worst that may happen. There are many farmers in Pike County who as a usual thing vote the Democratic ticket and may do so when it comes to state and local affairs, but they are not of all anxious to see a Democrat elected President. They have come to realize that a Protective tariff is good enough for them. In this county, as elsewhere, they are opposed to Canadian "reciprocity," a proposed piece of legislation that they fear would have been very detrimental to their interests. The farmers are a reading and thinking class of men today, and they are not as easily fooled as they were a few years ago. Watch the farmer vote and if you can tell anything about it you will do well.

Louisville (Mo.) News.

Drowned in Green River.

Central City, Ky., June 18.—Earl Barnard, the nineteen-year-old son of John Barnard, was drowned in Green river just across from South Carrollton. The young man, in company with an older brother and the two sons of John Durham, an adjoining farmer, had gone to the river to run rat lines. The older brother and one of the Durham boys were going across the river to look at the lines while the younger boy and the other Durham boy remained on the shore. The body has not been located.

Battle Flag is Returned.

Bickman, Ky., June 17.—Gen. W. A. Tyler, of this city, commanding general of the Forrest troops, has received from a man in Ardmore a Confederate battle flag that was captured at the battle of White Station, near Memphis, from Gen. Chalmers' troops.

If the demand should fall off the prices would come down proportionately.

Vast Throngs Gather for Big Convention.

Chicago, June 18.—The number of visitors to Chicago for the convention was estimated last night to be well above 150,000.

Every hotel in the downtown district was crowded to its capacity, and late crowds were directed to outlying hotels.

Early today, with not more than ten exceptions, the full list of delegates and alternates had been accounted for. The various State delegations and delegations of friends crowded the hotel corridors and street corners long after midnight.

Meat Prices May Drop.

The Philadelphia Record says:

Meat will go to any price that people will pay. There is no serious scarcity of food animals. The price of corn is an inadequate explanation of the price of meats. But the packers will get as high prices as they can, and the retailers will get large profits, if possible. If the demand for meat should fall off prices would come down. In spite of cold storage meat will not be kept indefinitely, and the big packers wish to keep their plants running and turn their capital over as often as they can. If they can't

Suffragettes in Fight.

Chicago, June 18.—Another interesting battle loomed up in the National Convention program Tuesday, when it was announced that the anti-suffragists would oppose the efforts of women who seek the right to vote to have a suffrage plank placed in the national Republican platform.

Led by Mrs. Arthur Dodge, a delegation representing the New York Anti-Suffrage Society was expected in Chicago Tuesday to aid in the fight.

The plan of the anti-suffragist is to appear before the Resolutions Committee at the same time that the National Suffrage Association makes its plan.

Hunting License.

Frankfort, Ky., June 16.—Quincy Ward, the executive agent under the Game and Fish Commission, is preparing to send out to all county clerks blanks for issuing licenses to hunters under the new law. Kentucky hunters must pay a license of one dollar and it is expected this will bring in a revenue of \$4,500 to \$5,000 a year, which will be used to pay the expenses of the Commission, including game wardens and other officials. The licenses are due in May each year, but as the law did not become effective till June 10 this year the blanks could not be sent out earlier than June. No license is required for fishermen.

Announcement Extraordinary!

Barnard & Co., after five years of successful merchandising, announce radical changes.

Our Quick Sale was very successful in its intention—to quickly reduce our stock—but we wish to reduce our stock to the limit. To do this requires hard, careful work. We realize that unless we give our customers better values than they can get elsewhere, it is very hard to greatly reduce our stock.

This We Propose To Do.

You will profit by purchasing from us within the next thirty days. We will keep our stock of perfectly staple notions and many other staples and will furnish them at less than you usually pay and at the same time sell you the merchandise on which we are overstocked at very, very low prices.

To our friends, we urge you to continue your much appreciated patronage. Our relations have been very pleasant and we hope to merit your continued favors.

Announcement of proposed change in our business will be made in due time.

Thanking you for many, many favors, we are

Yours truly,

good stuff for their money.

Whenever you see people doing a thriving business you may know there is a good reason for it. You may be fooled when you try your goods "on," but you can't be fooled long after you try them "out."

We are in business to stay in business. We would rather make a little profit and be sure of a big business, than to make a big profit and take chances of having to quit.

We give our customers good stuff for their money, but we don't "stuff" prices.

GNASHING OF TEETH NOT IN HELL FIRE.

Twisting the Scriptures Has Been Making Infidels.

Pastor Russell Shows That His Text
Refers to Sorrow, Disappointment,
Chagrin, That Came Upon Jews In
Overthrow of Their Nation, A. D. 70.

(PASTOR RUSSELL)

Philadelphia, June 16.—Pastor Russell had his usual crowded house today. He delivered two addresses. We report one of them from the text, "The children of the Kingdom shall be cast out into outer darkness; there shall be weeping and gnashing of teeth." (Matthew viii, 11, 12.)

The speaker declared that in common with the majority of ministers he had misinterpreted this and similar scriptures to refer to all the ungodly of mankind and to imply that they are writhing in torture in a hell whose location is unknown and which he now sees to be a human tradition without authority of the Word of God.

The Pastor analyzed his text and showed that it was addressed to the Jews, that they for sixteen centuries had been God's favored nation, in harmony with His promise to Abraham. They had much advantage every way over all the other nations—not only in the fact that the promises were given to them and the assailing influences of the Law, but additionally that to them were sent the Prophets with their encouraging messages.

Notwithstanding all these favors but comparatively few of that nation were in the heart condition to be accepted of God, to be Messiah's joint-heirs in His Kingdom. As the natural seed of Abraham they were the children or heirs of the Kingdom, and to them Jesus presented Himself. All of His miracles and teachings went to them, yet only a few were in such condition of heart that they could receive this Message.

In the context Jesus referred to the fact that the Gentile centurion who had none of Israel's privileges had more faith than any Jew. Commenting upon this the Great Teacher declared that God would take from the Jews the special privileges, except such Jews as were "Israelites indeed," and that He would complete the number of His elect by a selection of saintly characters from amongst Gentiles.

The Election Math Obtained It.

St. Paul declares, "Israel hath not obtained that which he seeketh for, but the election hath obtained it and the rest of the nation were blinded." (Romans xi, 7.) The elect of Israel were gathered into the New Dispensation at Pentecost and subsequently, while the Jewish people as a whole became more and more blinded and darkened in understanding until their nation expired in a time of anarchy, A. D. 70. Since then the Jews have been in trouble, in sorrow.

It was to this very condition of things that Jesus referred. He used the highly figurative language common in the East. What St. Paul styled "blindness upon Israel" Jesus described as going into outer darkness—losing the light of the prophecies and the hopes of the Abrahamic promise and thus getting into the same blind and dark condition in which Gentiles in general were. The experiences of the Jews during the past eighteen centuries Jesus described as "weeping and gnashing of teeth." His words simply signify sorrow, disappointment and chagrin.

Truly the Jews have had all of these experiences. We are glad if we see in God's Word a glorious prospect for His ancient and Covenant people. St. Paul calls this promise to our attention in Romans xi, 25-33. He tells us that God's Covenant with Israel cannot be broken, but will be established, and that natural Israel shall yet receive mercy, Divine favor, at the hands and through the agency of the Church—spiritual Israel—part of whom have been selected from the Jews and some from every nation—all saintly.

"Sit Down With Abraham."

The Great Teacher declares that while the natural heirs of the Messianic promises would be cast out from Divine favor, as they have been cast out for the past eighteen centuries—in the meantime Gentiles from the East and West, North and South would be found of similar character to the Centurion whose servant was healed. And these would sit down with Abraham, Isaac and Jacob in the Kingdom, in the sense that they enter into rest. As St. Paul declared, "We who believe do enter into rest." This is the same rest or sitting at ease that Abraham, Isaac and Jacob enjoyed. They had God's promise that eventually He would raise up a spiritual Seed of Abraham through whom all the families of the earth would be blessed.

Abraham rested upon that promise, so did Isaac; so did Jacob. And so we rest in this Divine assurance that a blessing will come to the children of Adam in God's due time; more than this, thus seated, we are resting in the Divine promise. To us has come the wonderful assurance that, if we sacrifice our little all of the present life, we shall become joint-heirs with Messiah in His Kingdom, members of His Bride.

Dodder in Clover.

One of the most destructive weeds found in Kentucky is a small twining yellow or reddish plant which clings over clover and alfalfa, securing itself to these plants and robbing them of their sap. It comes from a minute brownish-gray seed, looking like a particle of dirt, which germinates exactly like the seeds of clover, but after coming up has its hold on the soil and fastens upon other plants. The love-vine is related species, but is commonly found on plants of little value, growing on wet land.

These plants have no true leaves and are not weeds in the proper sense, but parasites, deriving all their nourishment from plants of other sorts. The clover-infesting species becomes extremely destructive at times, and sometimes damages a planting so severely as to compel the owner to plow it up. Fortunately, it does not attack most other plants and hence, even if well become thickly sown with its seeds, it will still produce crops of other sorts. Yet it is sometimes a source of loss and annoyance to a farmer to give up a tract of land for the seeds of dodder in the soil, and clover or alfalfa, because of the presence of this plant.

A convincing illustration of the value of Mrs. Eddy's teaching to the world may be found in her clear analysis of happiness. In Science and Health her words corroborate Scriptural statement and point to spirit as the one source of genuine happiness, not only showing the manner in which it affects the lives of men, but also revealing the way in which it may be intelligently attained and securely retained.

HAPPINESS SPIRITUAL BORN OF TRUTH, LOVE

One Finds Enjoyment Only in Unselfish Giving and Work,
Mrs. Eddy's Teaching.

The word happiness in its popular use is an elastic term accommodating itself to a wide variety of opinions concerning this state which all mankind desire to attain. Many gems of thought descriptive of happiness have been contributed to the world's literature, yet this great blessing continues to elude the grasp of men as a permanent possession. The most learned disquisitions on the effects of happiness, showing how it operates in the affairs of men, cannot insure its attainment unless its real origin is clearly traced and its true nature understood.

A convincing illustration of the value of Mrs. Eddy's teaching to the world may be found in her clear analysis of happiness. In Science and Health her words corroborate Scriptural statement and point to spirit as the one source of genuine happiness, not only showing the manner in which it affects the lives of men, but also revealing the way in which it may be intelligently attained and securely retained.

MEANING OF HAPPINESS.

Happiness, in the original use of the word, referred to something which came "by good hap," by chance, and was allied with the sense of luck and accident. This meaning of the word has given place to a somewhat higher sense in which chance is not recognized, yet it is far too generally conceded that material circumstances, environments and events have the power to make or mark the happiness of man. Mrs. Eddy's statement, on page 37 of Science and Health, that "Happiness is spiritual born of Truth and Love" fits thought up to the one source from which true happiness flows to man; to the realm of spiritual thinking where chance and accident are unknown and where the unchanging law of harmonious being prescribes to man every "good gift" which the Father has bestowed on his child.

This view of happiness offers a practical relief to the one who, burdened perchance by temperamental or hereditary tendencies, has thought it difficult or even impossible for him to acquire a happy disposition.

HAPPINESS IS UNSELFISH.

To look with longing eyes toward some coveted material possession as essential to his happiness regards his progress, for happiness does not depend on the mere possession of something, as has been commonly supposed. Too often have men wasted a large portion of their lives in strenuous efforts to communicate the material things they believed necessary for happiness, only to find at last that while selflessly reaching for earthly babbles they had neglected to develop the finer capacities for enjoyment.

"Happiness," Mrs. Eddy further says (page 57), "is unselfish; therefore it cannot exist alone, but requires all mankind to share it." This more spiritual understanding of the immaterial nature and the universal scope of happiness begins at once to destroy the mad ambition to get and to have for one's self and shows that happiness can live only in giving.

True happiness never consorts with worldly ambitions, but it arises spontaneously with noble life purpose and an unselfish ambition to be and to do good. The surest way of securing happiness for one's self, then, is to work industriously and hopefully at the task that claims attention from day to day, impelled by the thought, not of the reward that may come to one's self, but rather of how much one may by his very cheerfulness contribute to the general store of good in the world.

EXPRESSION OF DIVINE MIND.

This higher sense of happiness seeks nothing for one's self, but asks only to be made an unobstructed channel through which the joyful activities of the divine mind may be expressed to others. It does not depend on human praise for its incentive to work. It works for the pure love of work, for to be happily engaged in some useful way is the normal state of man as the child of God. Jesus said, "My Father worketh hitherto, and I work," and he also said after that marvelous illustration of happy humility serving others when he washed his disciples' feet, "If ye know these things, happy are ye if ye do them."

The secret of happiness becomes an open secret to all who follow his counsel: "Look away from the body into truth and love, the principle of all happiness, harmony and immortality. Hold thought steadfastly to the enduring, the good, and the
